# CATEC AGROCARE

## CATEC rumen regulator 200

Mineral feed for cattle

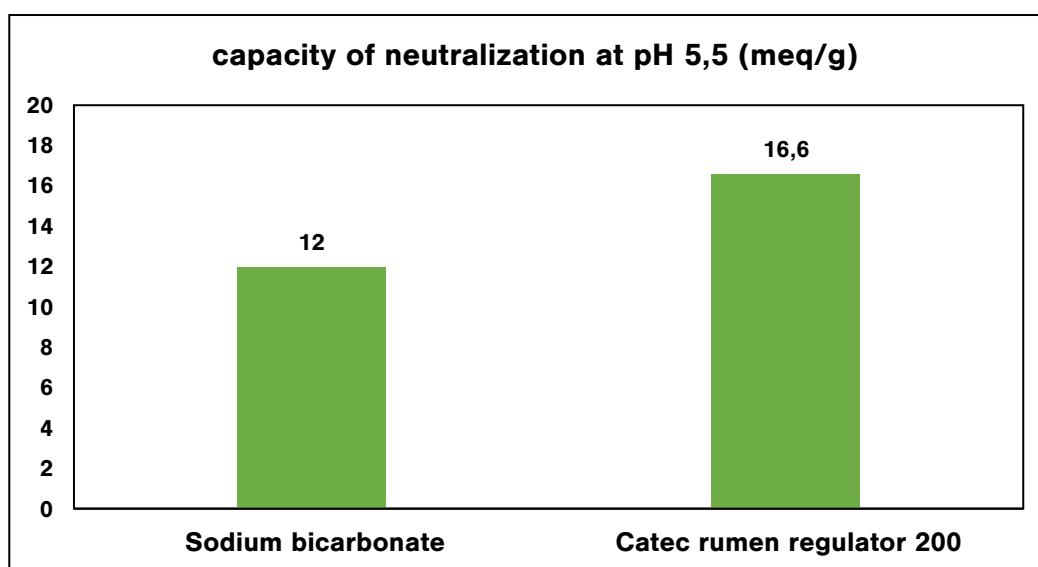

### Ingredients

Sodium	11,0 %
Magnesium	15,0 %

### feeding guidance:

200g CATEC rumen regulator 200/animal/day

The neutralization capacity allows to measure the amount of acids that 1g of a selected product can neutralize.

pastus<sup>+</sup> AMA-Gütesiegel tauglich

## CATEC rumen regulator 200

The optimal composition of buffer substances ensures for:

- Neutralization of the acid
  - reduced risk of acidosis
- consistent feed intake
- optimal rumen activity, even with high proportions of concentrated feed
