Catec Yeast

supplementary feed
for dairy cows

Ingredients:

Crude protein 41,0 %

Additives:

live yeast 320x10⁹ KBE

Animal Species:

dairy cows

Feeding recommendation:

50g/cow/day

Packaging:

25kg bags

Minimum shelf life:

12 months

Catec Yeast

Only a functioning rumen can absorb nutrients and enable dairy cows to perform at a high level. Maintaining a healthy rumen is therefore the most sustainable and effective measure in dairy cow feeding. The live yeast contained in Catec Yeast consumes the unwanted residual oxygen in the rumen and thus improves the environment for the desired microorganisms. This leads to increased crude fiber digestion, which contributes to both higher feed intake and better utilization of the feed consumed.
